WHAT TEACHERS ARE SAYING

I was shocked when I saw how many items were included, this truly has everything you would need to decorate a classroom... I love that items are added to the bundle over time. 10/10 recommend, I could not love this more!

Rulers & Rainbows

This resource has everything you could ever dream of and more when setting up your classroom. It is so nice that every single resource in this bundle is editable! Compared to many other decor packs I have seen, Stephanie truly knocked it out of the park. Truly a dream! Not to mention you are added to a Facebook group with more recommendations on how to use your pack!!

Coffee with Wildflowers

*What an absolutely stellar decor bundle. **This bundle comes with way more than I could have even hoped for!** I bought it on a whim because it went with the theme I was doing in my classroom for this school year and I had no idea how many awesome and helpful resources would be in here! I am also so pleased that the Sound Wall is a part of this bundle! I have already added so many of the resources to my classroom and everything is adorable! **Seriously love this bundle so much!!** Thank you!*
